

Smart Indoor Air Quality Monitoring Dashboard

ESP32 • DHT22 • MQ135 • ThingSpeak • Streamlit

 Last Updated: 28 Jul 2026 03:45:31 PM IST

 Temperature
29.4 °C

 Humidity
82.5 %

 Gas Sensor
1280

 **GOOD**

Overall Room Health

MODERATE

Some environmental parameters require attention.

Temperature	Comfortable
Humidity	Outside Comfort Range
Air Quality	GOOD

Overall Health Score
2 / 3 Parameters Within Recommended Range

Trend Indicator

 Air Quality Improving

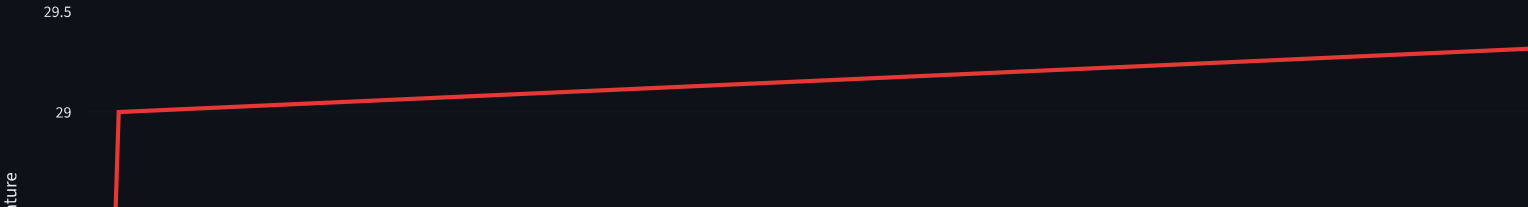

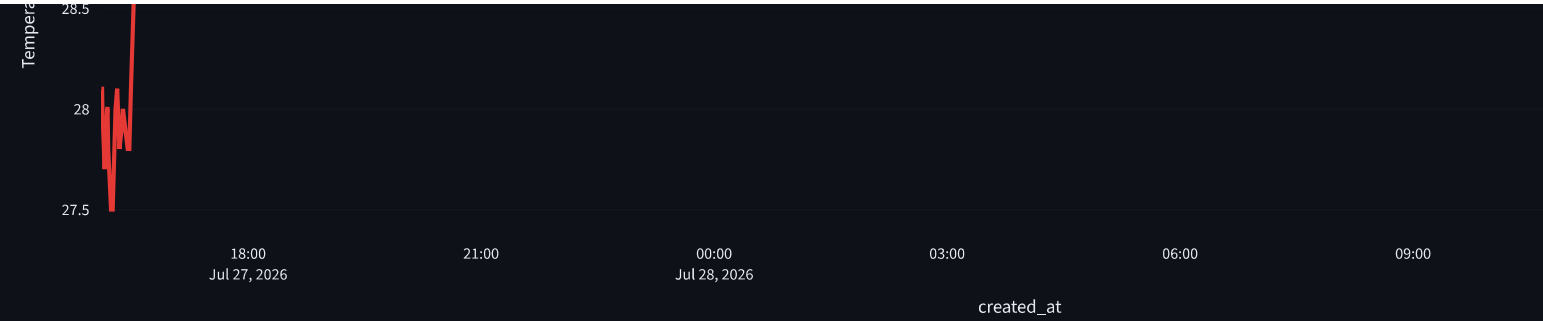

Recommendation

-  Good Indoor Air Quality
The indoor environment is healthy with only minor air pollutants.
- Recommendations
-  Indoor air is acceptable.
 -  Maintain adequate room ventilation.
 -  Open windows occasionally to ensure fresh air circulation.

Environmental Summary

Average Temperature

28.53 °C

Average Humidity

66.99 %

Average Gas Value

1065

System Status

- ESP32 Connected
- ThingSpeak Cloud Online
- Sensors Operational
- Data Logging Active
